

Virtual Community Service Opportunities

You may also want to contact your regular service agency to see if you can serve remotely for them (ie-create social media campaigns, a volunteer handbook, a video showcasing the agency, etc.). Other ideas include:

- Developing a plan to provide operational solutions for the organization
- Providing virtual or phone-based educational support to youth and adults if students have appropriate training and preparation
- Creating scripts for a podcast to raise awareness on an issue related to the mission of the organization
- Developing a public communications plan surrounding coronavirus and prepare the documents for that plan to be implemented
- Working with the organization to review and improve a specific policy
- Translating the organization’s promotional and/or educational material into other languages to help community members who do not speak English

Some agencies that offer virtual service hours are listed here.
